

A big new discovery in cigarette blending

The big thing about Chesterfields is their unique blend. The *Chesterfield blend* is an entirely new combination of tobaccos. It is the most important new development in cigarette making in 20 years.

As a result, Chesterfields produce a totally new kind of cigarette enjoyment—they satisfy! Just like a "bite" before bedtime—satisfies when you're hungry.

But with all that, Chesterfields are *MILD*, too!

This new enjoyment (satisfies, yet mild) comes ON a *Chesterfield* cigarette. No cigarette smokes can beat a *Chesterfield*.

WHAT MR. TAFT THINKS OF PRESIDENT WILSON

This is no time to point out mistakes of the past. This is no time, by attacks upon the General in command, to give the idea that our commander has not a united people behind him.

We are fortunate in having kept out of the present European War and we ought to support the Administration in keeping us out. If we had a jingo in the White House this country would now be at war with Germany.

He (Wilson) is not a Democrat President. He is our President. He is first an American, the same as we are. We must all be Americans first.

—Ex-President Taft.
